

# Right to Food (Scotland) Bill

## Introduction

A proposal for a Bill to incorporate the right to food into Scots law.

The consultation runs from 25 November 2021 to 16 February 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposal to incorporate the right to food into Scots law?

Fully supportive

**Please explain the reasons for your response.**

because I feel that access to good food is something that should be open to all in much the way I feel that the right to health care free at the point of delivery is a right.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

I'm not sure that legislation is needed.. But it would need to be supported at a government level

Q3. Which of the following best expresses your view on an independent statutory body being given responsibility for overseeing and reporting on progress towards realising the right to food?

Partially supportive

Q4. Should an independent body be given responsibility for overseeing and reporting on the right to food, do you think it should be:

Either option

Q5. Which of the following best expresses your view of enshrining a right to food into Scots law as a priority in advance of, and in a manner which is compatible with, any further Scottish Government legislation on wider human rights?

Neutral (neither support nor oppose)

Q6. Which of the following best expresses your view of placing responsibility for guaranteeing the right to food on the Scottish Government?

Partially supportive

## Covid-19 Pandemic

Q7. What impact do you consider the effects of, and response to, the Covid-19 pandemic has had on the need for a right to food to be incorporated into Scots law?

Unsure

## Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

some increase in costs

## Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

## Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

I would say that with Brexit and climate change/ environmental issues - food security is an important issue - and I'm slightly surprised neither of these issues were brought up in the context of the questions asked. In my opinion we are entering a time of increasing food insecurity and that has a relevance to the right to food.. IE if we have a scarcity of food - then access to what food there is may become a much higher item on the agenda.
