Q1. Which of the following best expresses your view of the proposal to incorporate the right to food into Scots law?

Fully supportive

**Please explain the reasons for your response.**

There has been an increase in food poverty which I believe a society such as ours should not tolerate and do all we can to eradicate it.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Current situation has shown access to food not fairly distributed; more children going hungry while people were stockpiling food.

Q3. Which of the following best expresses your view on an independent statutory body being given responsibility for overseeing and reporting on progress towards realising the right to food?

Fully supportive

**Please explain the reasons for your response.**

A statutory body should ensure a joined up approach to things like food insecurity, poor health, and good nutrition.

Q4. Should an independent body be given responsibility for overseeing and reporting on the right to food, do you think it should be:

A newly created body

**Please explain the reasons for your response.**

A new body could hold the government and councils to account

Q5. Which of the following best expresses your view of enshrining a right to food into Scots law as a priority in advance of, and in a manner which is compatible with, any further Scottish Government legislation on wider human rights?

Fully supportive

**Please explain the reasons for your response.**

Kids are going hungry now so we need to prioritise this.

Q6. Which of the following best expresses your view of placing responsibility for guaranteeing the right to food on the Scottish Government?

Fully supportive

Q6. Which of the following best expresses your view of placing responsibility for guaranteeing the right to food on the Scottish Government?

**Please explain the reasons for your response.**

– All levels of Government have a responsibility however if the SG want true freedom and by that freedom from poverty then putting responsibility on Scottish Government is only right..

## Covid-19 Pandemic

Q7. What impact do you consider the effects of, and response to, the Covid-19 pandemic has had on the need for a right to food to be incorporated into Scots law?

Increased the need for the Bill

**Please explain the reasons for your response.**

Covid exposed the frailties of the current problem which has exasperated food poverty.

## Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

some increase in costs

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

Extra costs but should lead to reduced costs to the Health and Social care sectors and improve education.

## Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**

Poverty and income inequality are main drivers for food poverty.

## Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes

**Please explain the reasons for your response.**

Access to healthy, local sourced food will lead to a sustainable food system and healthier children and families.

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Food is a human right and it is not acceptable that families are going hungry in Scotland in 2022
