Q1. Which of the following best expresses your view of the proposal to incorporate the right to food into Scots law?

Fully supportive

Please explain the reasons for your response.

I believe it to be a basic human right but also a morally, socially just but practical measure. When children are well fed with nutritionally benefits food as the norm, they are healthy, happier, more able to learn and more able to socialise and develop in to a responsible citizen contributing to society and less inclined to malnourishment-induced ill health - physically and mentally.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Legislation is required backed up by Govt funding. Should not be left to random "volunteers" or donors.

Q3. Which of the following best expresses your view on an independent statutory body being given responsibility for overseeing and reporting on progress towards realising the right to food?

Fully supportive

Please explain the reasons for your response.

This is so important that it needs to be properly monitored and agencies' outcomes scrutinised and those responsible held to account for performance.

Q4. Should an independent body be given responsibility for overseeing and reporting on the right to food, do you think it should be:

Either option

Please explain the reasons for your response.

As long as it happens.

Q5. Which of the following best expresses your view of enshrining a right to food into Scots law as a priority in advance of, and in a manner which is compatible with, any further Scottish Government legislation on wider human rights?

Neutral (neither support nor oppose)

Please explain the reasons for your response.

Whichever method can implement soonest

Q6. Which of the following best expresses your view of placing responsibility for guaranteeing the right to food on the Scottish Government?

Fully supportive

Please explain the reasons for your response.

Only way to implement is via Govt money

Covid-19 Pandemic

Q7. What impact do you consider the effects of, and response to, the Covid-19 pandemic has had on the need for a right to food to be incorporated into Scots law?

Increased the need for the Bill

Please explain the reasons for your response.

It has been shown that unless Govt money is allocated to provide eg lateral flow tests, it is doubtful if the tests would have been available to the public as needed.

Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

don't know

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

In a cost benefit analysis, the benefits of a healthy workforce and population and less cost to NHS .

Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.

Women in particular in families forego food in order that children or more vulnerable members can have food, or there is an energy bill or some other family expense.

Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes
